

Rapid Mobilization Negative Pressure ISOLATION ROOMS

100% wipe down cleanable and gas
phase decontamination ready
negative pressure room

TRUE ISOLATION

Each room contains independent

- + Thermostat and unique temperature and dehumidification control
- + HEPA filtered air supply
- + HEPA filtered exhaust with adjustable damper for controlling room pressure
- + Hospital/Cleanroom grade building materials throughout
- + Strip curtain ante room for gown-in/gown-out area
- + Airflow design ensures flow of fresh air to primary room occupants before continuing towards floor under strip curtain and exiting gown room

FEATURES

- + Available in 1, 2, or 3 room configuration
- + HVAC package can support up to 6 rooms total
- + Can package in standard 40' shipping container
- + Assembles and disassembles quickly. All modular components with fast and easy lego-like construction style.
- + All components included - just add electricity
- + Single pass air - No recirculation of contaminants
- + Pharma grade HEPA filtered supply and exhaust
- + 30+ ACH - meets USP 797 buffer + ante room requirements
- + Flexible - can be set up and function in widest conditions possible
- + Commercial grade modular components withstand long term use and can be reused repeatedly

HVAC SYSTEM

- + HEPA filters for supply and exhaust air
- + Supply and Exhaust HEPA filters feature eFRM material for superior strength and functionality (guaranteed not to tear in normal usage)
- + Exhaust filters are unique custom Airtho design to work directly in drop ceiling and connect to standard duct work
- + Total seal dampers on supply and exhaust allows for room individual room pressure balancing and can isolate room for decontamination.
- + VRF Heat Pump system to supply heat or air conditioning to each room. The same system can work in almost any climate and provide heat or AC as necessary.
- + Airtho Cell Fan exhaust fan
- + Flexible, can provide powered exhaust for up to 6 Airtho Rapid Mobilization Negative Pressure rooms
- + Can pressurize exhaust up to 100' from rooms

DOUBLE ROOM

Kit includes

100% of Architectural and HVAC components.
Connect electricity and go.

SINGLE ROOM

ARCHITECTURAL PACKAGE

Walls + Subfloor

- Aluminum faced foam filled interlocking SIPS panels
- Wipe down cleanable with most hospital disinfectants
- Air and water tight

Ceiling

- Airtho Intelligrid HD - strong and flexible
- LED lighting (energy efficient and flexible)
- Aluminum blank panels

Doors

- Hospital grade with large viewpanel (additional viewpanels are optional)

Strip curtain gowning/airlock area
